

Seamless Setup & Support You Can Count On

When it comes to your phone system, connecting with the right partner counts. Our partners count on us to deliver solutions that drive their business, and we deliver. We take time to get to know each company we serve, and offer support and training to help you get the most out of your phone system. We make setup a breeze and deliver reliable, personal support and ongoing service you can count on.

*Feature-rich phone systems. Awesome service.
Experience the Intulse difference.*

What is VOIP?

VOIP stands for Voice Over Internet Protocol. Intulse phone solutions harness the power of high-speed Internet and the latest cloud-based technology advancements to deliver secure, reliable communication tools that maximize the potential of today's technology. Plus, it's delivered with smart, budget-friendly pricing.

Reliable. Efficient. Powerful.

Connecting What Matters Wherever You Go

Business VOIP Phone Solutions

Flexible Phone Solutions that Power the Way You Work

From one extension to 1,000, Intulse VOIP business phone solutions provide you with a flexible, feature-rich communications system that can grow and change with your business – now and into the future. We work with companies of all sizes to harness the power of our unified communications tool – delivering seamless scalability, HD-quality voice, and features that power mobility, collaboration and efficiency.

Bottom line = we GUARANTEE you save money over traditional phone providers.

Predictable Pricing. No Hidden Fees.

Enjoy the convenience of predictable pricing with no long-term contracts and no hidden fees. One phone provider, one bill, one set price – it's that simple.

First-Class Features at Your Fingertips

By choosing Intulse, you get the power of a feature-rich system that can be customized to best-fit how you do business. Our communications specialists work closely to help select and implement features to ensure you get the most out of your system.

Empower Mobility

Stay connected wherever you are – in the office, in the car, at home, anywhere – on your terms! You're in control of how and where calls are routed. No need to give out your cell number. Use your business number to seamlessly route calls to your cell phone when you need to be readily available. Return calls from your cell phone using the softphone app, and leverage the power of your Intulse phone system from your mobile device. Voicemail to email and missed call indicator make it easy to ensure important calls aren't missed.

Increase Customer Connections

Put an end to busy signals with virtual receptionist technology. Use call queues to manage inbound calls. Your virtual call center can be customized to fit your business needs.

Cultivate Collaboration

Multi-way calling and conference capabilities are at your fingertips, giving your team the power to connect with each other and your customers with the push of a button – from anywhere!

Drive Efficiency & Productivity

Integrations with many popular CRM platforms allow seamless connection to the tools that power your business. Benefit from greater business intelligence and automation.

Harness the Power of Control

Control is at your fingertips with our easy-to-use dashboard that gives you the tools to manage your phone system. The convenience of scalability and setup also makes it easy to add or remove extensions as the dynamics of your team changes.

Make The Better Call
